

MRX YACHTING
RESUME OF BOATING EXPERIENCE

COMPETENCY

For your own protection as well as the safety of this vessel and any crew it is essential that as a Hire Drive Charterer that the charterer is competent to operate the vessel. This is determined by us by carefully reviewing resume of the designated Skipper
Charterers must be able to demonstrate that they have several years of boating experience in yachts of a similar size to that of this vessel. Satisfactory completion of recognised boating courses is helpful. Practical knowledge and experience racing sailing vessels is essential.
